

Ultrasound Gel

ECO Gel is a very good echo-transmission gel for ultrasound. Crystal-looking, it is salt-free and without string effect. It does not contain formaldehyde and, thanks to its particular structure, it helps the moving probe, thus making the operator's work easier.

ECO Gel is:

- Push-vacuum-produced and it is therefore free from air microbubbles
- Non irritant
- Water-soluble
- Drying resistant
- Odourless
- Easily removable
- Alcohol Free

ECO Gel does not:

- Stain
- Grease
- Ionize
- Oxidize over time

ECO Gel does not contain any active ingredients that might damage the probe transducer. The used dyes and preservatives are non-toxic and strictly in accordance with Australian regulations. Available in: 260ml bottle
