MediMesh Shelving Solutions

We have many configurations available! Looking for something completely tailor-made?
Please note, when castors are added to the unit, 165mm will be added to the overall height of the unit
Wire mesh with a stainless steel finish
Dust and dirt-free displays.
The height of the shelves to be easily adjusted
Features heavy-duty wires with strengthening ribs and reinforced shelf edges
The Shelves slide down the Upright Posts and over the Plastic Collars
Clips to lock the shelves into position

Build your own Item MediMesh Number, as follows:
MM = MediMesh
Select from the following:
Stainless Steel SS
450 or 600 = Shelf Depth
1000, 1250, 1500 or 1750mm Length
1000, 1800 or 2000mmH Posts

Then choose the amount of shelves (Tiers) required, there can be from 2 to 7
depending on the height of the post.
Example:
MM-SS-450-1000-4T

Or, if you require Castors add an M = for Mobile to the end of the Item
Number, Example:
MM-SS-450-1000-4TM

SWL – Safe Working Load
MEDIMESH SWL WEIGHT CAPACITY:
Each shelf max capacity is 150kg (static) with the total unit max capacity
900kg (static)
In a mobile environment, the 150kg still applies but we would not recom-
mend any more than 250kg overall and recommend the majority of the
