

Hospital and Commercial Grade Disinfectants

We are able to supply a locally manufactured, high quality product for use to prevent the spread of COVID-19.

These include products such as broad spectrum disinfectant, high efficacy disinfectant and personal hygiene products which help to eliminate a wide range of microorganisms including viruses, bacteria and fungus. Our powerful commercial grade disinfectant cleaners and wipes can be used on most plastics, composites and fabrics while our anti-bacterial hand gels which assist workers to practice effective personal hygiene.

Netbiokem DSAM+ - Hospital Grade Disinfectant Solution

Netbiokem DSAM+ is a ready to use high performance virucidal, fungicidal, bactericidal, disinfectant cleaner for all hard surfaces. It provides broad spectrum disinfection in industrial, institutional, healthcare and household settings. Netbiokem DSAM+ will not harm or damage fabrics, plastic, metals, rubber or other surfaces.

Netbiokem DSAM+ is effective against:

Herpes Simplex Virus, Adenovirus, Escherichia coli (E coli), Poliovirus, Pseudomonas aeruginosa, Norovirus, Enterococcus hirae, SARS-CoV-2 (COVID-19), Salmonella choleraesuis, Influenza A (H1N1), Staphylococcus aureus (Golden Staph), Proteus vulgaris.

- Kills 99.99% of most harmful bacteria, fungi, mycobacteria and viruses in 2 minutes
- Passed the TGA Virucidal test against the Covid-19 surrogate - see ARTG Cert# 355810
- Can be applied by spray, or by microdiffusion with an Ultra Low Volume (ULV) fogging machine.
- Active ingredient is triamine and is designed for fogging, however also good as a spray and set/wipe product
- Free from benzalkonium chloride (BAC) which is not suited for fogging.
- Non-toxic and non-corrosive formulation
- Provides disinfection on hard surfaces in healthcare
- Manufactured here in Sydney, available in 500ml Spray Bottle and in 5L and 20L.

Not intended to be used on medical devices or other therapeutic goods or skin

TGA listed - ARTG ID: 355810

HAND SANITISER—NOVOGEL AB 5L (CTN/4)	CAH9024-42

Infra Red Forehead Thermometer

Clinical Forehead Infrared Thermometers ensure accurate and stable body temperature readings, without the need for physical contact from a distance of around 5cm.

Simply point the thermometer towards the forehead to read the temperature shown on the LCD screen. High temp shows as red, normal as green.

This Non-Contact Forehead IR Thermometer is specially designed to take the body temperature of a person regardless of room temperature.

Note: We also can supply a range of other quality PPE products, such as gloves, gowns, sterilisation wraps and bags, masks and faceshields.

Suppliers of quality products to the Healthcare Industry est 1889.
