Carrier 10 and Carrier 15 Charging Stations™

Charge, store, secure and carry up to 10 or 15 of almost any device.

Organised Cables and Hidden Bricks.
• Minimise cord chaos by keeping those cables secure once and for all.
• Cables stay organised in the unique top channel, allowing you to plug in devices quickly after each use.
• Power bricks are stored in a separate compartment, hidden from sight

Wall or Desk Mountable.
• The Carrier Charging Stations are designed to adapt to your surroundings.
• Transform any wall or counter into a secure area for charging mobile devices while taking up only minimal space.
• Carrier 10 & Carrier 15 Charging Stations™ come with dyna bolts. These units have holes for the dyna bolts[*2].

Easy Cable Management.
• PC Locs cable management has been simplified so that you can wire an entire Charging Station in minutes.
• Save time with set up and gain time using your Charging Station.

Baskets by PC Locs.
• These aren't your typical baskets. Slotted Device Baskets by PC Locs make device deployments faster, safer and more efficient.
• Each basket can old up to 5 devices[*1]. Contact us for more details.

Carrier 10™ with internal wire storage Racks

portable storage basket

Carrier 15™ with internal wire storage Racks

Additional Key Benefits

- **Compatible & Efficient.** Includes two or three large Baskets to hold devices up to 13" as well as a stainless steel device rack for storing devices up to 17" with or without cases[*1].
- **Future Proof.** Think inside the box, and you won't be stuck with a bunch of outdated charging stations. Removable racks and Baskets allow this station to adapt to future needs as devices change or new technology is added.
- **Distribute devices up stairs or over rough terrain.** Baskets by PC Locs allow you to share and safely distribute devices between multiple locations within your facility. The Baskets are interchangeable with PC Locs Carts that use the same Large Basket ecosystem.
- **Small Footprint.** Easily place the charging station on a counter or mount it to the wall. Either way, the Carrier Charging Station takes up minimal space.
- **Secure.** Protect your device investment without worry. Lock away devices in the storage area with a padlock.
- **Built to last.** Carrier Charging Stations are made with high-quality, welded steel and are backed by a lifetime warranty.
- **Lock Included.** This charging station comes with a high-quality, stainless steel padlock and keys.

Putnam 8 or Putnam 16 Charging Stations™

- **External Charging Status Display**. With a colour-coded LED charging status display for each slot, easily know if your devices are charging (red) or ready to use (green).
- **Compatible**. Designed specifically for iPads but also works with other tablets. Simply swap out the cables.
- **Secure.** Fully welded steel construction and a built in mechanical combination lock make this charging station ultra secure.
- **Pre-Wired.**
1. Equipped with 8 MFi approved Lightning cables, the Putnam Charging Station™ comes with everything you need to lock and charge your devices.
2. Equipped with 16 MFi approved Lightning cables, the Putnam 16 Charging Station™ comes with everything you need to lock and charge your devices.
- **Small footprint and lightweight.** Easily mount the compact unit to the floor, wall or a desk to save even more space[*2].
- **Stackable.** With a pedestal and bracket, you can stack the Charging Stations to provide additional slots for charging devices. The pedestal allows you to keep the Putnam 16 higher off the floor so you don't have to bend down as far to access devices on the lower shelves
- **Efficient charging.** With 2.4 amp charging at each port,
- The Putnam 8 Charging Station™ can charge 8 devices at once in the same time as charging 1 [*1].
- The Putnam 16 Charging Station™ can charge 16 devices at once in the same time as charging 1 [*1].
- **Easy cable management and pre-wired**. Easy to set up and use. MFi approved lightning cables are included and pre-installed for iPad devices.
- **External display for charging.** Easily know the charging status of your devices with red or green LED indicators. Red means the device is charging and green means the device is ready to use.
- **Case or no case.** The Putnam 8 and Putnam 16 Charging Station™ slot dimensions are optimised to work with most cases and covers.
- **No Keys!** With an integrated mechanical combination lock, there are no keys to worry about. Plus, the charging station includes a master override key for administrators in case of forgotten combinations.

Putnam 18 C Base Charging Station™

Designed to charge, store and secure up to 18 Chromebook, small laptop or tablet devices.

- **Numbered Slots.** By assigning each device it's own slot number, it's easy to know which devices are missing at the end of the day with only a quick glance inside the Charging Station. (Please note: the numbered panel does not light up.)

- **Organised Cable Management.** The Putnam 18-C Base Charging Station™ has a removable side panel to easily access power bricks. The Power Module is pre-fitted with elastic straps for holding your power bricks in place, while neatly routing cables through to each shelf and is removable and replaceable for future upgrades.

- **Say Goodbye to Tangled Cords.** It's virtually impossible to tangle the charging cables in the Putnam 18-C Base Charging Station™. The cords are the just the right length to reach each device–no more, no less, no mess.

- **No Keys to Worry About.** With an integrated mechanical combination lock, there are no keys to worry about. In the event of a forgotten combination, we've included a master override key.

- **Compatible & Efficient.**1 Designed specifically for Chromebooks, small laptops or tablets up to 13". The Putnam 18-C Base Charging Station™ can charge 18 devices simultaneously.

- **Case or no case.**1 Slot dimensions are optimised to work with most cases and covers[*1].

- **Small Footprint.** The tall, slim design of the Putnam 18-C Base is ultra compact, saving valuable real estate in space-strapped locations.

- **Wall Mountable.** Putnam 18 C Charging Stations™ have an optional wall-mounting kit available (sold separately) that allows you to mount the unit directly to the wall.

- **Stackable Design.** Larger work areas can utilise two Putnam 18-C Base's to get to 36 slots. To save space, stack two Putnams on top of one another–or if congestion around the station is your main concern, simply place multiple Putnams in different areas of the room to spread out the distribution of devices.

- **Optional Pedestal.** An optional pedestal is available to provide easier access to the bottom slots, and it allows you to charge all 36 devices with one outlet plug. It also keeps the unit higher off the floor so you don't have to bend down as far to access devices on the bottom shelves.

- **Lifetime Warranty.** Fully-welded steel construction and a built-in mechanical combination lock make this Charging Station ultra secure. backed by a lifetime warranty.

Revolution 32 Charging Station™

The Revolution 32 Cabinet is a fixed charging, storage and security station specifically designed to simplify the management of large Laptop, Chromebook and Tablet deployments[*1]. It can accommodate up to 32 devices and is equipped with an up-graded ECO Safe Charge™ for safe and efficient charging. This intelligent system stages the availability of power to each group of devices. The functions available can help prevent power overloading, reduce energy bills and extend the life of your laptop's batteries.

Benefits

- Simultaneously charge 32 Chromebooks, Laptops and Tablet devices[*1].
- ECO Safe Charge Power Management System for safe and efficient charging. A remote control is also included to turn on the Cabinet.
- External LED Display. Easily and quickly see if your devices are charging and the charging mode selected.
- Timed Charging. Easily set your Wall Cabinet to charge for a specific amount of time. All programmable with the remote or the Cabinet itself.
- Equipped with removable device racks which can be swapped out for Baskets to make device compatibility and portability quick and easy.
- Safe and secure. The locking system and wall fixing unit will ensure devices and the Cabinet are safe and secure.
- Flexi power system. Adjust the position and angle of the power board to your preferred position to accommodate a variety of different device chargers
- Slimmer and compact design to fit in tighter areas.
- Plastic lined laptop slots for protecting devices.
- Built-in storage compartments. Neatly store away device power packs out of sight.
- Wall fixing kit to secure the Cabinet.[*2]

Revolution 32 Charging Station™ Size: Height: 1415 (H) x 805 (W) x 414mm (D)
Weight: 55kg
Slot/Bay Dimensions: 475 (H) x 280 (D) x 40mm (W)

Note: Cables are not included in this unit - Please use cables supplied with purchase of your devices or additional cables can be ordered separately with purchase of this unit.

*2 We only recommend mounting into a secure brick wall. Check with a qualified builder for safe installation

IQ10 Charging Station™

Charge, store and secure up to 10 iPads and most Tablets simultaneously.

Compatibility. Universal design and functionality makes it compatible with just about any iPad or Tablet device, with or without cases.[*1]

Efficient USB charging. Charge 10 devices at once with up to 2.4 amps of power at each port.

Flexible. Mount and transform any wall, desk or bench into a secure space for charging mobile devices. Compact design makes it perfect for rooms or locations where space is scarce[*2]

Secure. The combination of welded steel construction, the mounting-kit and a hardened steel padlock, protects your devices while they're not in use.

Bonus! Also comes equipped with 2 Small Baskets by PC Locs to make device deployments safer, easier and quicker.

IQ 10 Charging Station™ Size: 406(H) x 320(W) x 403(D) mm
weight: 13.8kg

Description	Product Code
CHARGING STATION - IQ10 W/ PRE-WIRED LIGHTING CONNECTOR CABLES #LOCKABLE (EACH)	PCL7121

IQ 10 Sync Charging Station™

With the same benefits as the IQ 10 Charging Station™ the IQ 10 Sync Charging Station™ has the ability to allow administrators to sync 10 devices while charging.

- **Efficient syncing.** Sync 10 devices simultaneously. Our top of the line syncing technology seamlessly integrates with Apple Configurator and other syncing software.[*3]

- **Secure syncing and charging.** The externally accessible power outlet and host port means that you can sync and charge your devices while they're safely locked away.

Optional Extra: Standard Lightning to USB Connector Cables. The [MFi Approved Lightning Cables](link) are 300mm in length making them perfect for coupling with the PC Locs iQ 10 Sync Charge Station.
Please note: The iQ 10 Sync Charge Station™ is not compatible with the Lightning to USB illuminating POWER READY™ Smart Cables and the 30-pin to USB illuminating Smart Cables.

CHARGING STATION - IQ10 SYNC W/ PRE-WIRED LIGHTING CONNECTOR CABLES #LOCKABLE (EACH)	PCL7120

*1 May not fit all devices with cases. Please check the dimensions of the devices for size compatibility.
*2 The IQ10 comes with dyna bolts. These units have holes for the dyna bolts. We only recommend mounting on a secure brick wall. Check with a qualified builder for safe installation
*3 The time taken to sync all devices will depend on the amount of content to be transferred and the number of devices connected.

FUYL Tower 5™ and FUYL Tower 15™ Intelligent Charging Station

Charge, store and secure most mobile devices in 5 or 15 individually lockable compartments.

Intelligent Remote Management.
- Our innovative management software comes included with the Wi-Fi-enabled FUYL Tower, and once network connected, designated administrators can view, access and manage one or more FUYL Towers remotely.

Highly Secure.
- The digital keypad controls the security of every compartment.
- Additionally, the management software records every time a compartment is opened or closed, enabling administrators to track usage

Compatible & Efficient Charging.
- Each individual compartment is equipped with a power outlet and a 2.4 amp USB port, so you can charge almost any device, including: iPads, Tablets, Chromebooks, Laptops, mobile phones and more.

Flexibility.
- The FUYL Tower doubles as the perfect BYOD charging locker or as a secure solution in any device check-in and check-out environment.
- It puts administrators in control to provide access or even assign a specific compartment to a single user.

Additional Key Benefits
Complete Control. Administrators can remotely open any door, deny access to a reserved locker, view the status of FUYL Towers on the network, receive alerts of any abnormal usage or technical fault and download a full audit log.

Future-Proofed. Keeping up to date is easy with FUYL Tower software and firmware upgrades available via the FUYL Tower management portal.

Easy to Use. Follow simple prompts on the screen of the central control panel to access a locker. We even include "CHARGE YOUR DEVICE HERE" signage to make the charging towers effortlessly identifiable.

Wi-Fi Ready. Easily connect the FUYL Tower to a Wi-Fi network or hardwire it into your network.

API Integration Available.

Take your FUYL Tower to the next level by integrating with its API - allowing developers to seamlessly unify your software and apps.

Tough as Nails. Designed with passive ventilation to minimize heat build-up during charging, the FUYL Tower stays cool under pressure, and it's backed by our lifetime warranty.

Modular and Scalable. The FUYL Tower's minimalist design adapts to any shared space.

Wall Mountable. The FUYL Tower 5™ can be mounted to wall.[*2].

Dual Charging. Bays can store and charge up to 2 mobile devices per bay depending on the mobile devices size. 1 Laptop and 1 mobile phone per bay is recommended depending on there size[*1].

Network Connected. An optional Network Kit vastly expands the data transfer capabilities of the FUYL Tower 5™ or FUYL Tower 15™ through individual Ethernet connections to each compartment. The Network Kit (sold separately) allows IT Departments to install a network switch to the top of a Tower and connect devices from each bay to a network, making it possible to re-image devices remotely.

*Network Switch not included with Network Kit.
